

Now that the stars are
twinkling bright and
sleep is getting near,
remember all these
special things that
make you oh so dear.

I like you when you're happy

I like you when you're sad

I like you when you scrunch
all up and get really mad

I like you when you're funny

I like you when you're shy

Hi!
I like the way you say "hello"...
Bye-bye.
...and how you say "goodbye"

I like you when you're brave...

...and I like you when you're not

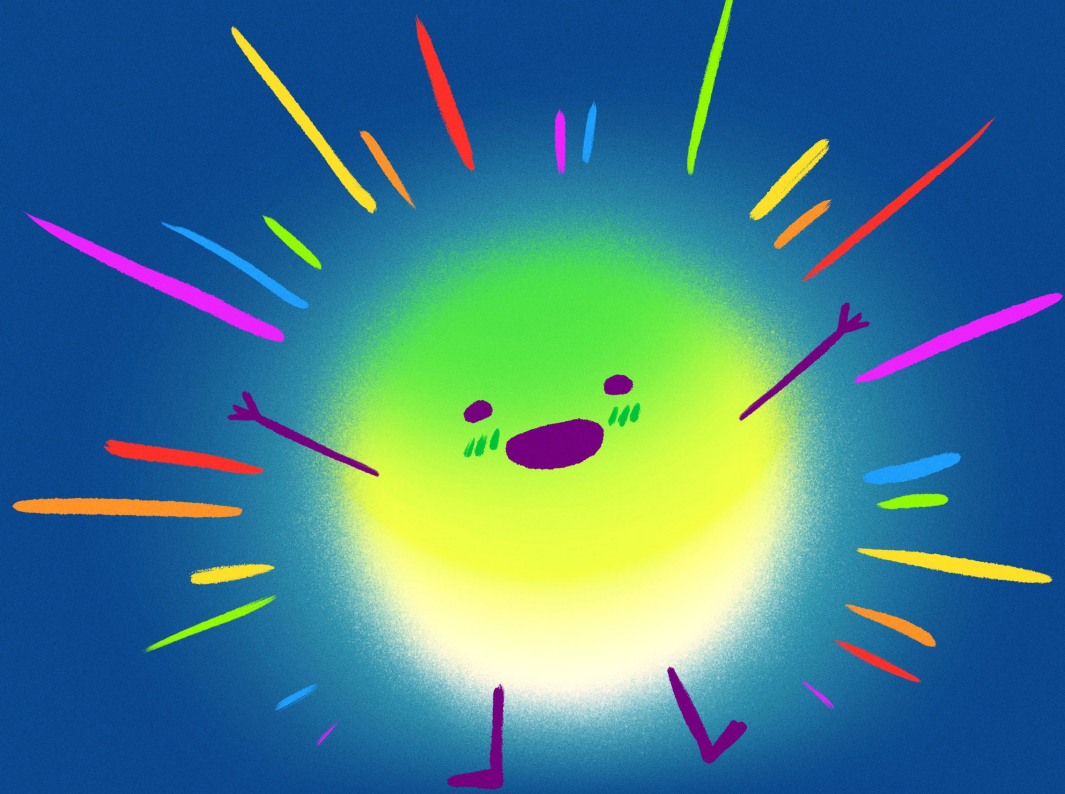

oops.
I like you when you make a mess...

I like you quite a lot

I like you when
you're right

I like you when
you're wrong

I like the way you smile
when you sing along

I like you when you're big

I like you when you're small

I like you how
you are today...

...I think the
most of all

Now snuggle in, my sleepy head, the moon is shining bright.

Close your eyes and go to bed.

It's time to say goodnight.
